

## WOTHA Mailbox Regulations

**All mailboxes need to be black and of a standard size to match the others in the community.**

**Mailbox posts must be gray, white, or any light color which matches the existing home. There are two approved mailbox post styles:**

1. Wooden mailbox post with built-in newspaper box. Current mailbox posts may continue to be maintained. If you would like to replace your mailbox post with another wooden post, you must ensure the post and newspaper box are constructed according to the current design. *If you are in need of someone who can provide a new wooden mailbox post, contact Doug Hackworth at [douglas@dhackworth.com](mailto:douglas@dhackworth.com) or (863) 662-9039.*

2. The Woods of Tabb Board has also approved the vinyl mailbox post pictured below for our neighborhood. The vinyl look is very appealing, and it comes with a newspaper box already attached. You will need to install (cement into the ground) the post yourself and the actual mailbox in black would need to be purchased separately (or use the one you already have).

Ordering information for the approved post:

“Twin Star Mail Post” from Walpole Outdoors. Order the vinyl option.

[www.walpoleoutdoors.com](http://www.walpoleoutdoors.com)

Current pricing: \$279.00 + tax + \$50 shipping

*\*\*Suggestion: If several neighbors want to purchase the mailbox post at the same time, please contact the representative below to see if it is possible to get a reduced price for the post and/or for shipping.*
